

Making changes to your Mesh

* Click on the MESHdesk icon on the Radiusdesk home page.

* Click on the mesh you want to edit in the MESHdesk window and click on Edit in the Action Toolbar. The Edit Mesh Window opens.

Depending on the changes you want to make, browse through the tabs in the Edit Mesh window to add, edit or delete settings, entry points, exit points or node settings.

For detailed descriptions of the settings available for a Mesh see these tutorials under MESHdesk How To's ⇒ Getting Started:

- [Create a Mesh with Entry points and an Exit point](#)
- [Add a Captive Portal to your Mesh](#)
- [Add the nodes to the Mesh on Meshdesk](#)
